Campervan Sites	No Charge	No Charge
Tractor Pull Competition (Friday)	No Charge	No Charge
Dinner Ticket	\$100	\$100

Every day we hear more about how consumers worldwide are seeking a healthy diet, rich in plant-based food.

This presents fantastic opportunities for New Zealand horticulture, with increased demand for our premium food. We are growing rapidly and horticulture is the industry to be a part of.

While demand for our healthy food is high, challenges are not insignificant as we battle for growing land, access to water, and enough people to keep us growing. As we look at *Our Food Future*, the theme of the 2019 Horticulture Conference, we need to focus on solutions and some of them need to be found fast. Some solutions will come from better collaboration, and others will come from being creators and early adopters of science, technology and innovation.

One thing we know for sure, we need to be able to grow food not only for an increasing New Zealand population, but also for an increasing worldwide population. Our food needs to be safe, healthy, environmentally sustainable and affordable.

We want you to come to our conference to join the big conversations; to see and hear about what is being done to enable and enhance our food future; and to be an active part of that future.

Mike Chapman
CHIEF EXECUTIVE
Horticulture New Zealand

THE CHALLENGE IS BIG, SO WE HAVE A VENUE TO MATCH!

In 2019 our conference will be at the impressive Mystery Creek site just outside Hamilton, which is about 113 hectares.

We have an exciting programme lined up which includes hands-on demonstrations of futuristic ideas, exhibits including large machinery for you to have a look around, a cooking demonstration involving plant based proteins and field trip visits to Zealong Tea, Hill Laboratories and Visy packaging. We're also planning a tractor pull competition if you just want to come along on the Friday for a bit of fun!

Bring your campervan! Campervans are welcome onsite at Mystery Creek. Power connections are available as well as toilets and shower facilities. There is no cost to bring your campervan.

It's expected that the Horticulture Conference 2019 will be our biggest yet!
